CONTENTS DESCRIPTION:

This accession consists of 24 boxes of Commerce Committee “black books.” (material was removed from 3-ring binders and put into folders). The books contain material from the 99th-102nd Congresses (1985-1992) and were put together by one individual on the Committee staff (Leslie Blosse) to serve as a record of Senator Danforth’s activities on the Commerce Committee.

Most of the books contain, along with other material, issue fact sheets/memos prepared by Committee staff specifically for these books -- the memos document Senator Danforth’s involvement in legislation and were organized using these major headings: Explanation of Issue; What Generated Interest; Action on Bill; JCD role, position, significant quotations (citations to); Political Advantages/Problems Foreseen; and Significance of Issue. Other types of materials in the books include: Press releases; Congressional Record excerpts; Hearing transcripts; Senate record vote analyses; Danforth form letters; Staff memos; News clippings; Danforth statements; Correspondence; and other relevant background material.

Books for the 99th and 100th Congresses were not put together in any particular subject order - the major committee issue areas of Aviation, Communications, Consumer, Merchant Marine/NOPS, Science/Space/Technology, and Surface Transportation appear throughout the books. The books for the 99th Congress number 1-30, but there are actually 33 books. The books for the 100th Congress number 1-23A, but there are actually 25 books.

Books for the 101st and 102nd Congress are organized by subject group (Aviation, books 1-3; Communications, books 1-4; Communications, books 1-5, etc.). There are 25 books for the 101st Congress and 25 for the 102nd Congress.

The books for the 99th-102nd Congresses in these boxes were microfilmed and SHSMO has also received a copy of the microfilm (in Box 520; Accession Number 100-94-MISC, Box 4 of 5). There are 25 tapes. The original tapes and 1 copy were sent to the National Archives with other Commerce Committee records.

Commerce Committee staff members put together books for the 103rd Congress, but they are not as detailed as the books for the 99th-102nd Congresses (none of them contain memos relating to specific issues as the other books do and they do not contain as much background material). The 22 books prepared for the 103rd Congress are arranged by subject area. The books are grouped as follows:
Aviation, Books 1-5
Communications, Books 1-4
Consumer, Books 1-2
Foreign Commerce (Trade), Books 1-2
Merchant Marine/NOPS, Book 1
Science/Technology/Space, Books 1-2
Surface Transportation, Books 1-5

25 reel to reel microfilm tapes. There are 8 groups of tapes (in chronological order).

These 25 tapes are of Commerce Committee “black books” from the 99th-102nd Congresses (1985-1992). A detailed description of the books can be found on the inventory for Box 466 (Accession Number 100-94-COMM, Box 1 of 24).

Target sheets were used in the filming process to identify the books by volume number as a record of total books filmed. Target sheets were also used where tabs appeared. Only the first page of bulky publications was filmed. Target sheets are included with these tapes because they may be useful in preparing access terms.

The film for the 99th Congress contains volumes 1-33. The 25 books of the 100th Congress were filmed as volumes 34-59. There are 25 books for the 101st Congress, filmed as volumes 60-84 and there are 25 books for the 102nd Congress, filmed as volumes 85-109.

Filming of the books was done at different times throughout 1994 in 4 separate groups which explains the out-of-sequence cartridge numbers on the tape labels. The index to the books and the books for the 99th-100th Congresses were filmed in 2 groups: Cartridge #1519-#1521 (3
tapes) contains the Index to the books of the 99th-102nd Congresses and books 1-20 of the 99th Congress; Cartridge #1538-#1543 (6 tapes) contains books 21-30 of the 99th Congress and all the 100th Congress books (1-23A). For the 99th and 100th Congresses, there are 9 tapes.

The books for the 101st and 102nd Congresses are organized by subject area and they were filmed in 2 groups (the 101st and then the 102nd). There are a total of 25 books for the 101st Congress. The books are volumes 60-84 in the microfilming sequence and they were all filmed together. The cartridge numbers for these tapes are #1582-#1588 and there are 7 tapes.

There are a total of 25 books for the 102nd Congress. The books are volumes 85-109 in the microfilming sequence and they were all filmed together. The cartridge numbers for these tapes are #1616-#1624 and there are 9 tapes.

The tapes are boxed in groups of 3 or 4 and are numbered 1-8, beginning with the tapes from the 99th Congress and ending with the tapes from the 102nd Congress. These are copies of the microfilm of the original books. The master/original tapes and a copy of the tapes were sent to the National Archives.
