K0395

Native Sons of Kansas City Scrapbooks
[Native Sons Archives]
ca. 1820-1960
14 cubic feet

*Scrapbooks containing newspaper clippings, photographs, manuscript materials, publications, and research notes of a variety of Kansas City area events and topics, such as early settlers and civic leaders, built environment, art and culture, education, government, and commercial activities.*

BIOGRAPHY:

The Native Sons of Greater Kansas City began collecting material for their archives virtually from its founding in 1932. Its most serious efforts, however, occurred in the late 1940s through the early 1960s. During that time the Native Sons Archives (NSA) under the guidance of James Anderson and George Fuller Green, gathered an impressive collection on 19th and early 20th century Kansas City history. WHMC-KC received the collection in 1990 as the Native Sons of Greater Kansas City Archives. Because the many smaller collections contained in the NSA could more effectively be identified individually, it was determined they would be ‘broken out’ and assigned their own collection numbers.

PROVENANCE:

This gift was received from Native Sons of Kansas City as part of accession KA0590 on July 17, 1990.

COPYRIGHT AND RESTRICTIONS:

The Donor has given and assigned to the University of Missouri all rights of copyright which the Donor has in the Materials and in such of the Donor’s works as may be found among any collections of Materials received by the University from others.
PREFERRED CITATION:

Specific item; folder number; Native Sons of Kansas City Scrapbooks (K0395); The State Historical Society of Missouri Research Center-Kansas City [after first mention may be abbreviated to SHSMO-KC].

CONTACT:

The State Historical Society of Missouri Research Center-Kansas City
