The Records of the Engineer's Club of St. Louis were donated to WHMC by the club's board of directors in January 2000.  

The Engineer's Club was organized in 1868 by a small group of local engineers. The goal of the organization was the general advancement of professional knowledge; the interchange of ideas and the formation of a library for reference. The first president of the club was Henry Flad who had been instrumental in the construction of Eads Bridge. In the early days of the club members would present papers on problems such as smoke abatement or river navigation or theories such as the automobile or the possibility of flight. The members would then discuss the issue. These discussions often resulted in improvements in the lives of the citizens of St. Louis. Water purification and street lights were but some of the ideas first brought up at a club meeting. A survey of the early journals will show the members involvement in every aspect of the city infrastructure.  

SCOPE AND CONTENT  
The collection contains the journals of the club as well as some administrative files. Some photographs including construction pictures of Eads Bridge and membership files going back to the charter members. Two rolls of microfilm contain books written about Eads Bridge and Two books, one on the construction of Eads Bridge and the other on engineering data for St. Louis.  

SERIES DESCRIPTION  
SERIES 1: JOURNALS  
This series contains the journals of the Association of Engineering Societies of which the Engineer's Club of St. Louis was a part and the Club's own Journal. Arranged chronologically.  

SERIES 2: ADMINISTRATIVE FILES  
Contains a wide variety of administrative files from meeting minutes to bowling team records. Arranged alphabetically.  

SERIES 3: OTHER ORGANIZATIONS  
Contains information on other engineering organizations around the country. Arranged alphabetically.
SERIES 4: MEMBERSHIP FILES
This series contains almost 6,000 membership files arranged alphabetically.

SERIES 5: PHOTOGRAPHS
42 Photographs including some glass slides of Eads Bridge under construction, some members and shots of the arch and stadium. Entered in WHMC photo database.

SERIES 6: MICROFILM
Contains two rolls of microfilm on Eads Bridge

SERIES 7: AUDIO TAPES
10 Reel audio tapes on talks or conferences at Engineers Club.

SERIES 8: BOOKS
Three books relating to engineering in St. Louis, a book on the construction of Eads Bridge, one on engineering data for St. Louis, and a report on the New Madrid Fault. The books have been placed on the WHMC bookshelf.
