INTRODUCTION
Set of formulae prepared by Robert Patterson of Philadelphia for Lewis to use in determining geographical locations by astronomical observation. Also includes a “sketch given us by Yallept, the principal chief of the Wollah-wollah nation,” and a drawing, probably by Lewis. Microfilm copy available for loan. A use copy of the notebook is also available on CD and online.

DONOR INFORMATION
The astronomy notebook was purchased by the State Historical Society of Missouri from William Clark Breckenridge in 1928.
