

Information Sheet

R **Van Sickle, Ferris H.**
26 **“History of Mine La Motte,” 1949.**
 41 pages, typescript.

This collection is available at The State Historical Society of Missouri. If you would like more information, please contact us at shsresearch@umsystem.edu.

This is a photocopy of a term paper prepared for a class at Southeast Missouri State University at Cape Girardeau, Missouri.

John P. Skaggs, president of the Madison County Historical Society, loaned the “History of Mine La Motte” for copying to the Western Historical Manuscript Collection. The paper was in the collection of the late Dr. W. Harry Barron of Fredericktown, Missouri.

The history was written as a term project for a class in history at Southeast Missouri State University at Cape Girardeau. In a cover letter to Dr. Barron, Van Sickle mentions a Dr. Collins, presumably the professor for whom the paper was written. Van Sickle had access to research materials from Dr. Barron's collection on Mine La Motte, including an unpublished manuscript history compiled by Gertrude Scott Hall (WHMC-Rolla Collection R025). A variety of secondary sources are also cited.
