Historical Note:

The Meramec Regional Planning Commission (MRPC) first met in September 1968, with representatives from Crawford, Dent, Gasconade, Maries, Phelps, and Washington Counties. They were officially recognized by Governor Warren Hearnes in January 1969, under Missouri's State and Regional Planning and Community Development Act. The MRPC was formed as a means for regional counties to work together to solve local problems and plan future economic, environmental, and population development of their region. The MRPC added Osage County in 1997 and Pulaski County in 2005, to their coverage area.

During the 1980s, the Meramec Regional Planning Commission conducted historic site surveys of Crawford, Dent, Gasconade (southern portion only), Maries, Phelps, and Washington Counties in Missouri. The surveys were funded by the Missouri Department of Natural Resources, which is the repository for the original survey reports.

Arrangement:

The collection has been arranged into the following seven series:

Crawford County

Maries County

Southern Gasconade County
