

S0829 Oral History Collection

11 Boxes, 800+ Audio Recordings

This collection is available at The State Historical Society of Missouri. If you would like more information, please contact us at shsresearch@umsystem.edu.

PROVENANCE

The audio files in the Oral History Collection are comprised of many different accessions and collections. Provenance records for individual recordings can be provided upon request.

HISTORY

The Oral History collection consists of reels, cassettes and transcripts of oral history conducted by WHMC staff, UMSL students and other individuals of important St. Louis Citizens. These interviews fall into general categories such as Immigrants, Black Community Leaders, Labor Leaders, etc.

SCOPE AND CONTENT

The Oral History Collection consists of three series: Reels, Cassettes and Transcripts. Series 1 contains Reels and notations indicate where transcripts are available. Boxes 1-5 house the collection of Reels. Series 2 contains cassette tapes and notations indicate where transcripts are available. Boxes 6-8 house the cassette collections in three tiers. Series 3 contains transcripts. In rare instances, transcripts exist for missing or damaged oral histories and are thus the only record of the interview. This is noted on the individual transcript. Boxes 9-11 house the transcripts.

COPYRIGHT AND RESTRICTIONS

Some recordings do contain restrictions. These are noted on the individual entry listings.

FOLDER LIST

BOX 1, T-001 – T-34

SERIES 1 – REELS
