

H.J. KUKUK RETURNS

Beloved Director Is Back After 18 Months

The 18 minutes of tape may still be missing, but the 18 months in which IFA's beloved director Harvey J. Kukuk was, at his own insistence, incommunicado, have ended.

Aardvark-watching still consumes the majority of the beloved director's time but he has communicated some of his thoughts on matters of particular interest to IFA members through his personal Boswell, the Golden Finger of Frisbee.

Conduct of IFA Masters: The beloved director was somewhat distressed to learn that there are several Frisbee Masters who have not vigorously pursued their obligatory responsibility of sharing their talents and knowledge with persons less fortunate and less skillful. At his insistence each Master will receive a case of Frisbees and it is naturally assumed that those persons who were guilty of omission will adhere religiously to the precepts and concepts on which the IFA was founded and the Master qualification was created.

Frisbee 4-F?: Calling Frisbee 4-F is like calling Bob Hope 4-F was the way in which the IFA's beloved director reacted to stories in the news media which imputed negative patriotic aspects to the Frisbee. It should be recalled that Harvey J. Kukuk personally shipped more than 10,000 Frisbees to Vietnam for use by American servicemen and in the

Kirkland, who placed third in distance at the 1973 IFT, recently visited Berkeley and won a Frisbee competition which included both May and Victor Malafronte. John is also the first person to qualify as a Master ambidextrously.

Newly-developed throws and catches: Those who are used to the manner in which the beloved director comports himself are aware that he is an open-minded type of individual who takes great pride in the achievements of those persons who have created new techniques in their never-quenched thirst for Frisbee capability. Nonetheless, it must be assumed that Harvey J. Kukuk can't help but feel that if the creator had intended that Frisbees fly upside down he would have made them soup tureens.

Rumors of a Frisbee shortage: Working in his own ubiquitous and inimitable manners, the beloved director has investigated the situation thoroughly and is quite prepared to stake his not inconsiderable reputation on the fact that Frisbees will continue to fly.

Aces Host 3-Man Guts Invitational

The **Highland Avenue Aces**, three-time winners of the **Julius T. Nachazel Trophy** (1971-72-73) emblematic of world Guts Frisbee supremacy, hosted a three-man Guts tournament in Wilmette, Ill. to which they invited numerous mid-west Frisbee enthusiasts.

Among those on hand were such Frisbee greats and **Thor** and **Sky King**, (#63,335), **Steve the Enforcer**, (#365 F.M.), and representatives of such great Guts Frisbee aggregations as the **Indiana Gutsmasters**, **C & R Losers**, **Bosch Hunt-Hers** and the most popular of all Frisbee groups, the **Humbly Magnificent Champions of the Universe**.

The Humbly Mags, male and female, were 12 strong and one of their members, **Suzie Kelly**, was a

member of the championship team.

Teams for the tournament were selected by putting the names of players in a hat and drawing them, although in some instances teammates on established teams requested and were permitted to play on the same team.

Also on hand was the **Playboy Advisor**, who has become a Frisbee Freak since first attending the IFT last year. His planned feature on Frisbee is tentatively scheduled to appear in the June issue of **Playboy**. He also, was a member of the winning team.

The Humbly Mags are planning to hold a three-man tourney in March, and the Aces will host another event in June.
